

Last chance: Receive idea-to-business coaching, gain access to the largest European space innovation network, and much more

Do you have a great idea for a space-connected start-up? Then Nordic Launch 2023 is for you!

For budding Nordic space entrepreneurs, Nordic Launch is a virtual pre-incubation accelerator program which prepares you for applying for €50.000 from ESA BIC to support the launch of your startup and gives you the opportunity to:

- Get exceptional idea-to-business coaching from ESA BIC coaches.
- Participate in talks given by prominent keynote speakers from key industries in the space sector.
- Get access to the largest European space innovation network.
- Gain access to a wide selection of cutting-edge technology created by the space industry and start-ups.
- Develop your pitch skills to increase your chances of getting funding.
- Get cool Nordic Launch Merchandise
- The finalists will receive a ticket to Space Investment Day and ready for investment participants will get the chance to attend Tech BBQ.
